

In Greece anchorage regulation has a variety of implementation.

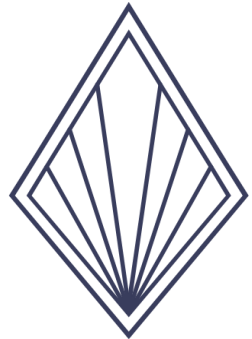

1. Vessels are forbidden to anchor in front of organised beaches.
2. We may allow it though in the rest beaches if anchored behind the red and the yellow buoys.

REGATTA^{PLUS}

3. Anchorages are forbidden from port limits.

4. Anchorage is forbidden in less than 500mtrs from underwater cables or construction.

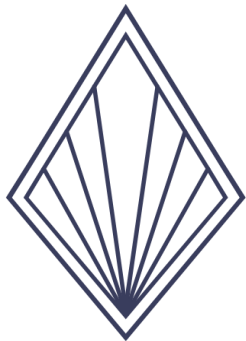

REGATTA^{PLUS}

In general Greece with a coastline of 13.676 km comes as No11 in the global chart.

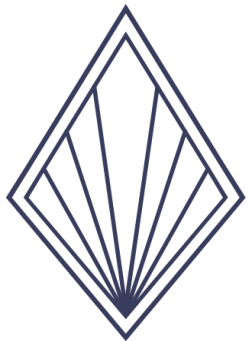

The black triangles are official anchorages which are not operating yet.

Posidonia destructions:
Greece has no official claim regarding
Posidonia destruction yet.

Posidonia can be protected with the specific spiral patterned ground line according to Archipelagos/the Institute of Marine Conservation.

REGATTA^{PLUS}

We always have an anchorage spot for Yachts.
Thank you.
